Nawar Meree

System Administrator · IT Infrastructure · SaaS Development

PROFILE

System administrator with 4+ years of experience building, running and securing the IT infrastructure of an industrial company with 1,200 employees. Strong skills in Windows Server, networking (MikroTik, Huawei), FortiGate firewalls and backup & recovery. Today also builds multi-tenant SaaS platforms and AI applications. Structured, fast learner, service-minded.

EXPERIENCE & PROJECTS

Cobra SaaS – multi-tenant SaaS platform

since 07/2026

Own product · grew out of cobra-pos (v0) and cobra-oop (v1)

- Two products on a shared kernel: Cobra Commerce (ERP + point of sale) and Cobra Beauty (CRM)
- Offline-first Electron apps with bidirectional cloud sync
- PostgreSQL Row-Level Security, device licensing, LAN sync, encrypted offsite backups
- TypeScript · React · Electron · Express · Prisma · PostgreSQL · SQLite

LexAI – AI legal-document assistant

Project · github.com/nowarmerey/pdf-rag-agent

- SaaS platform with a RAG architecture and vector database (Supabase pgvector) for semantic search
- Multi-format processing (PDF, Word, images) with the Gemini Vision API
- Multi-tenant system with JWT authentication, bilingual UI (DE/EN), deployed on Railway
- Python · FastAPI · PostgreSQL · Google Gemini

Mereva Wallet – SaaS expense manager

2026

Project · github.com/nowarmerey/mereva-wallet

- Personal-finance web app built to be sold as a subscription: wallets, budgets, bills, saving goals, cash-flow forecast
- Stripe subscriptions with plans and a trial, sign-in via email or Google (NextAuth), admin console
- Three languages (EN/DE/AR incl. RTL), Google Drive backup, Docker deployment
- Next.js 14 · React · PostgreSQL · Prisma · Tailwind

IT support internship

08 Dec 2025 – 12 Dec 2025

Berger IT Services, Lahr

- End-user support by phone and remote
- Helped set up Microsoft 365 and cloud solutions for an engineering office
- Configured antivirus software and cloud backup
- Supported the IT relocation of a kindergarten administration

System Administrator

02/2021 – 08/2025

Sada, Homs (Syria) · chemical fertilizer plant, 1,200 employees

- Helped build the complete IT infrastructure: network, WiFi and server rooms across 4 floors
- Installed and configured ~250 PCs, 100 printers, IP phones and MikroTik & Huawei network equipment
- Built and administered Windows Servers (incl. file servers) in four server rooms
- Security: FortiGate firewall, backup & recovery; monitoring with Zabbix
- Helpdesk & remote support for ~400 staff; ZKTeco attendance system
- Automated admin and payroll processes with VBA – processing time cut by more than 60%
- System updates, migrations, performance tuning and technical documentation

EDUCATION

Bachelor of Engineering, Computer Engineering 2019
Al-Baath University, Homs · Software Engineering & Information Systems · 5-year program

Degree evaluation by the ZAB (KMK), Germany 2024
Reg.-No. LN2024/1318-1
